HYUNDAI VEHICLE OWNER PRIVACY POLICY

Your Hyundai vehicle may be equipped with technologies and services that use information collected, generated, recorded or stored by the vehicle. Hyundai has created a Vehicle Owner Privacy Policy to explain how these technologies and services collect, use, and share this information.

If you would like to receive a hard copy of our Vehicle Owner Privacy Policy, please contact our Customer Care Center at:

Hyundai Customer Care
P.O. Box 20850
Fountain Valley, CA 92728
800-633-5151
consumeraffairs@hmausa.com

Hyundai’s Customer Care Center representatives are available Monday through Friday, between the hours of 6:00 AM and 5:00 PM PST and Saturday between 6:30 AM and 3:00 PM PST (English).

For Customer Connect Center assistance in Spanish or Korean, representatives are available Monday through Friday between 6:30 AM and 3:00 PM PST.

WARNING!

To reduce the risk of serious injury to yourself and others, read and understand the important SAFETY INFORMATION in your Owner’s Manual.

* Some vehicles may not be equipped with all the listed features.
CHARGING DOOR

To open, while vehicle is unlocked, press on the outside of the charging door or use Voice Recognition. After recharging, install the bottom inlet cover first before installing the upper inlet cover. Press the close button to close the charging door.

Emergency Charge Connector Release:
If the charging cable will not release, open the trunk and pull the emergency cable.

Charging Connector Lock
Locking mode for connected charging cable. Select Settings -> ECO Vehicle -> Charging Connector Locking Mode

Scheduled Charging Override

If you have a charge schedule set and would like to charge your vehicle outside that window, you can press and hold the button after plugging your vehicle in and it will start charging.
Main indicators in cluster for Electric Vehicle

**Ready indicator light**
When the vehicle is ready to be driven, this indicator is illuminated. When the ready indicator goes off or blinks, we recommend the vehicle be checked by an authorized HYUNDAI dealer.

**Service warning light**
If a problem with the electric vehicle control system occurs, the service warning light will illuminate. We recommend the vehicle be checked by an authorized HYUNDAI dealer.

**Power down warning light**
When the vehicle power should be limited for the safety of the electric vehicle, this warning light illuminates. Charge the battery immediately when the high voltage battery level is not enough.

**Charging cable indicator**
This indicator shows the charging status of the high voltage battery.
- When a charge cable is connected, the indicator illuminates in red. The approximate charge time will be displayed on the dash after a few minutes.

**High voltage battery low level warning light**
This warning light illuminates when the high voltage battery level is low.
- When the warning light turns ON, charge the battery immediately when the high voltage battery level is not enough.

**NOTE:** DC Quick charge session is time limited and may not reach maximum charge in one session depending on initial battery % SOC. The maximum charge possible in Ioniq Electric is 94% SOC on a DC Quick charger which will show a slightly lower range than with Level-1 and 2 chargers with maximum possible charge to 100%SOC.
FEATURES AND CONTROLS

WIRELESS CELLULAR PHONE CHARGING SYSTEM
There is a wireless cellular phone charging system in front of the cup holders. The system operates with all doors closed, and the Engine Start/Stop button in the ACC/ON/START position.

Wireless charging system can be disabled in the instrument cluster settings menu.

NOTE: The wireless cellular phone charging system supports only the Qi-enabled cellular phones (Qi).

NOTE: Do not place any metallic items such as coins, keys on the charger. Avoid placing credit cards on the charger as they may be damaged by the magnetic field.

The charging area may be warm while using wireless charging.

NOTE: Wireless charger will deactivate whenever a door is opened.

USB PORT
Use a USB-A cable to connect an external audio device and listen to it through the audio system in your vehicle.

USB CHARGER
FRONT USB CHARGER
REAR USB CHARGER
The USB charger is designed to recharge batteries of small size electrical devices using a USB-C cable.
The electrical devices can be recharged when the Start/Stop button is in the ON or START position.

ELECTRIC VEHICLE SYSTEM MODES

1 Returns to the previous step.

2 View the current battery level.
   ⚠️ If you press the vehicle image, the energy information screen appears.

3 Can search for nearby charging stations.
   ⚠️ The details of charging stations displayed on the map screen may not match the actual information.

4 View the distance to empty for the current climate control settings.
   ⚠️ The details of drivable range displayed on the map screen may not match the actual information.

5 Set the next departure time. ► See "Setting the next departure time."

6 Configure settings to perform charging and/or climate control according to the departure time. ► See "Scheduling a charge and climate controls."

7 Set an electricity usage limit. ► See "Setting an electricity usage limit."
   ● V2L: This technology uses the battery power of an electric vehicle to power electronic devices in the vehicle.

8 You can set to enable the Electric Vehicle mode. ► See "Configuring the EV settings."

9 Shows the solar roof charging status (if equipped).
